*Efforts taken by the institution to provide career counseling including e-counseling and guidance for competitive examinations during the last five years*

#### Response

Birla Global University focuses on the all-round development of students and facilitates ample opportunities for career counseling through formal and informal platforms. The university follows a systematic approach that starts from the day of admission. Facilities are provided to inculcate skills with technical and leadership abilities simultaneously with career guidance.

The university is equipped with an active Center for Corporate Relations – CCR responsible for Student internship and placements. Pre-placement talks are organized by the Center for Corporate Relations to counsel the students. Professional development activities along with regular counseling, assessment, practical interaction, follow-up, consultation, and referral help for professional development and guidance are facilitated.

A 'Mentor-Mentee' system is followed where a maximum of 10 to 12 students of classes are allocated under a faculty for regular academic, personal, and professional guidance and progression. The Mentors also suggest and prescribe various Value Added courses for Students keeping their competencies and areas of Interest in mind. Correspondingly, it also helps the faculty to understand the needs of the students clearly and accordingly plan, and prescribe various skill improvement measures. Students cultivate the necessary competencies and skills in the area of their interest.

The University has developed a strong industry-academia linkage under which regular professional development programs and industry expert talks are organized. This creates a platform for the students to interact with industry experts directly. This not just only supports the students to understand the current needs but enhances clarity of the industry requirements and motivates students to engage in self & professional -development

In addition to this, different types of training and mock interview sessions on interview skills, GD, awareness of recent trends in career opportunities, and soft-skill development are conducted regularly.

Date : June 2021

Expert : Ms. Puroitree Majumdar

With classes happening virtually, students have been finding it overwhelming to juggle between course work, assignments, exams and their personal lives. Adding to this, procrastination is a menace to say the least and we tend to fall prey to it. This happens particularly when we have a task at hand which is uninteresting for us. As we are all aware of the saying, "Time waits for none", we had organised a webinar on how to "Own Your Time". This webinar aimed at understanding the challenges in managing time and strategies to tackle the habit of procrastination.

## Webinar - Understanding Gender Biases (Changing culture of Gender Violence)

Date - 16th June 2020

Expert - Ms. Puroitree Majumdar

One of the major steps to achieve gender equality is by understanding gender biases and acting towards the change as a community. Saying that we live in a patriarchal society would be an understatement, and while society's gender-based limits are being pushed, there's still a long way to go. However, to bring in a positive change, it is crucial that we bust gender myths and start talking about the norms of gender equality.

In this light, we had organised a LIVE webinar on "Understanding Gender Bias (Changing the Culture of Gender Violence)" to equip students to become more sensitive and responsible towards fostering a society where people of all genders are able to grow without fear of judgement. Students engaged with us very keenly and came forward to share their thoughts and concerns. **Over 570 queries** from all across colleges were received and the same were addressed by our expert during the webinar.

**100% of the attendees** who gave their feedback liked the webinar (rated it Good or Very Good).
