Repository of Birla Global University

The Institutional Repository of Birla Global University is designed to collect, safeguard, and share the university's scholarly contributions. Serving as a vital platform for academic exchange, it ensures the long-term preservation of institutional knowledge. Our Library takes pride in hosting this repository, supporting the dissemination and conservation of the valuable intellectual output of the Birla Global University community. DSpace is the world leading open source repository platform that enables organisations to:

- Seamless Access to Academic Resources – Provides open access to theses, dissertatis, research papers, and datasets with advanced search and browsing options.
- Research Management & Collaboration – Supports self-archiving, versioning, citation tools, and integration with ORCID for academic identity.
- Long-Term Preservation & Impact Measurement – Ensures secure storage, copyright management, and tracks research impact through usage statistics and download analytics.

Why Instutional Repository?

D-Space is a robust institutional repository for storing, managing, and sharing in-house publications like research papers, theses, project reports, and multimedia content etc. It promotes open access, increasing the visibility and impact of institutional research while supporting long-term preservation. With features for institutional branding and seamless integration, DSpace offers a cost-effective solution for preserving knowledge and fostering academic collaboration on a global scale.
